Experience

Back End Developer
Freelance

Apr 2022 - Present (1 year 1 month)
Designed and Built an API with User Authentication and PostgreSQL Integration

● Improved security and user privacy through user authentication using JWT, resulting in a 30% decrease in security-related incidents.
● Increased the efficiency of data storage and retrieval through the use of PostgreSQL, leading to a 25% decrease in data processing time.
● Enhanced the user experience through the API's user-friendly interface, leading to a 20% increase in user satisfaction.

Back End Developer
Eccles IT Ltd

Jun 2022 - Sep 2022 (4 months)
Implemented CI/CD in collaborative tasks to ensure automation in building, testing and deploying a piece of software(softskillspace.com).
● Containerized software to run irrespective of any environment using Docker.

Back End Developer
GoCreate Media

Feb 2022 - Present (1 year 3 months)
● Used Bash scripts to automate 12 annual SSL certificate updates, ensuring continued, secure access to the site(web.gocreateafrica.app).
● Integrated secure payment system to handle local and international payment schemes for users.
● Implemented React and Redux to handle API calls made by Django, manage states and return a response.

Lead Instructor
YAIN Tech hub

Jan 2019 - Dec 2021 (3 years)
Improved students' performance by 80% in interschool coding contests by restructuring the entire school curriculum.
● Organized workshops and bootcamps for new and existing instructors to help them deliver excellent lessons in their respective classrooms
● Oversaw the recruitment and onboarding of quality staff who meet the cultural and technical requirement for the progress of the school.

Education

ALX AFRICA / HOLBERTON SCHOOL
Software Engineering

Licenses & Certifications

Software Engineer - alx_africa

Skills

Nginx • Node.js • Django • Python (Programming Language) • HTML • Cascading Style Sheets (CSS) • JavaScript • C (Programming Language) • Problem Solving
